

CompTIA FC0-U51

CompTIA IT Fundamentals Certification Exam

Version: 5.0

November 17, 2017

Topic 1, Software

QUESTION NO: 1

Which of the following extensions identifies a video file?

- A.**
.msi
- B.**
.tar
- C.**
.img
- D.**
.mp4

Answer: D

Explanation:

QUESTION NO: 2

Which of the following file formats contain other files within them? (Select TWO).

- A.**
tiff
- B.**
dmg
- C.**
png
- D.**
mp3
- E.**
iso
- F.**
flac

Answer: B,E

Explanation:

QUESTION NO: 3

Which of the following is performed during WiFi setup on a mobile device?

- A.**
Configuring bluetooth pairing settings
- B.**
Configuring email settings
- C.**
Configuring screen lock settings
- D.**
Configuring SSID settings

Answer: D

Explanation:

QUESTION NO: 4

Which of the following is a reason that a user might upgrade a video card driver? (Select TWO).

- A.**
To decrease the screen resolution
- B.**
To access monitor standby mode
- C.**
To fix an error message
- D.**
To use additional features
- E.**
To adjust the brightness/contrast

Answer: C,D

Explanation:

QUESTION NO: 5

When trying to activate the operating system, a user receives a notice that the software is not genuine. Which of the following security threats has occurred?

- A.**
Social engineering
- B.**
Phishing
- C.**
Virus attack
- D.**
License theft

Answer: D

Explanation:

QUESTION NO: 6

A user wants to purchase a CAD application that requires 8GB of RAM to operate. Which of the following operating system types is required?

- A.**
8-bit
- B.**
16-bit
- C.**
32-bit
- D.**
64-bit

Answer: D

Explanation:

QUESTION NO: 7

Which of the following operating systems is MOST likely to be found on a desktop where its primary functions include professional video and audio editing?

- A.**
Chrome OS
- B.**
Windows 7 Home
- C.**
Mac OS X
- D.**
iOS

Answer: C

Explanation:

QUESTION NO: 8

Which of the following is MOST likely required during installation in order to legally install software?

- A.**
Automatic updates
- B.**
Service level agreement
- C.**
License key
- D.**
Antivirus software

Answer: C

Explanation:

QUESTION NO: 9

Which of the following alternative technologies allows a computer to run multiple operating systems without partitioning the hard drive?

- A.**
Web applications
- B.**
Dual boot
- C.**
Telepresence
- D.**
Virtualization

Answer: D

Explanation:

QUESTION NO: 10

Which of the following software types allows for the creation of a single file composed of multiple subfiles, while at the same time reducing the overall size of the combined elements?

- A.**
Database
- B.**
Document sharing
- C.**
Compression
- D.**
Maintenance

Answer: C

Explanation:

QUESTION NO: 11

A user is at the office and has a cellular phone that previously functioned properly. The phone is powered on with a fully charged battery. However, the phone does not have connectivity. Which of the following describes the problem?

- A.**
Phone is disconnected from WiFi
- B.**
Provider is conducting system testing
- C.**
MAC address is bad
- D.**
Phone is in airplane mode

Answer: D

Explanation:

QUESTION NO: 12

Which of the following operating systems is very lightweight and relies heavily on Internet applications?

- A.**
Chrome OS
- B.**
Windows
- C.**
Linux
- D.**
Blackberry OS

Answer: A

Explanation:

QUESTION NO: 13

Which of the following is a common characteristic of open source software?

A.

Update cycles are dictated by the manufacturer

B.

Modifications to core functionalities are made by the manufacturer

C.

Can only run on certain manufacturer processors

D.

Can be fully modified by the user

Answer: D

Explanation:

QUESTION NO: 14

Which of the following operating systems is available for free and can be modified by anyone?

A.

Windows

B.

Linux

C.

Mac OS

D.

Chrome OS

Answer: B

Explanation:

QUESTION NO: 15

Which of the following software package types is designed to accept input from multiple users?

- A.**
Utility
- B.**
Operating system
- C.**
Specialized
- D.**
Collaborative

Answer: D

Explanation:

QUESTION NO: 16

A user learns of an operating system vulnerability that would allow a hacker to access the computer. The user would like to keep the operating system up to date to prevent such vulnerabilities from occurring. Which of the following should the user configure?

- A.**
Additional OS features
- B.**
Automatic updates
- C.**
Software firewall
- D.**
Anti-malware software

Answer: B

Explanation:

QUESTION NO: 17

Which of the following is the BEST example of productivity software?

- A.**
Word processing software
- B.**
Entertainment software
- C.**
Image editing software
- D.**
Anti-malware software

Answer: A

Explanation:

QUESTION NO: 18

Which of the following technologies allows people to communicate all over the world inexpensively?

- A.**
Virtualization
- B.**
SSID
- C.**
Kinetics
- D.**
VoIP

Answer: D

Explanation:

QUESTION NO: 19

Which of the following is a requirement to connect a smartphone to a wireless network?

- A.
SSID
- B.
SATA
- C.
SMTP
- D.
gzip

Answer: A

Explanation:

QUESTION NO: 20

A user has purchased some new software from a vendor and wants to install it on all of the Windows computers in the house. Which of the following will help the user accomplish the task and ensure compliance with the software vendor?

- A.
Copy and paste the program between computers.
- B.
Purchase a multi-user license.
- C.
Purchase a single-user license.
- D.
Use remote desktop to share the program between computers.

Answer: B

Explanation:

QUESTION NO: 21

A user has downloaded an application file with the .dmg file extension. Which of the following

operating systems can be used with this file by default?

- A.**
iOS
- B.**
Windows
- C.**
Mac OS
- D.**
Chrome OS

Answer: C

Explanation:

QUESTION NO: 22

By default, which of the following types of operating systems can automatically detect a user's location while the user is traveling in a bus?

- A.**
Server
- B.**
Desktop workstation
- C.**
Virtual server
- D.**
Mobile

Answer: D

Explanation:

QUESTION NO: 23

A user had to replace the hard drive in a computer. The user would like to install the games that came with the computer but were not installed as part of the initial OS setup wizard. The user can

install the games by performing which of the following?

- A.**
Schedule automatic updates.
- B.**
Enable installed OS features.
- C.**
Update hardware drivers.
- D.**
Reinstall productivity applications.

Answer: B

Explanation:

QUESTION NO: 24

Which of the following features of a smartphone controls the screen orientation?

- A.**
Gyroscope
- B.**
NFC
- C.**
Accelerometer
- D.**
GPS

Answer: A

Explanation:

QUESTION NO: 25

A user's operating system is set to automatically update as updates are released. However, last week's updates failed to download. Which of the following should the user do FIRST to install the updates?

- A.**
Reference the OS manufacturer's website.
- B.**
Run a virus scan to remove viruses.
- C.**
Reinstall the operating system.
- D.**
Change the automatic update schedule.
- E.**
Manually download the updates.

Answer: E

Explanation:

Topic 2, Hardware

QUESTION NO: 26

Which of the following printer types uses a powder based consumable with a lower cost per page compared to other printers?

- A.**
Thermal
- B.**
Laser
- C.**
Dot matrix
- D.**
Inkjet

Answer: B

Explanation:

QUESTION NO: 27

A user installing a printer can connect it to which of the following ports? (Select FOUR).

- A.**
PS/2
- B.**
VGA
- C.**
DVI
- D.**
USB
- E.**
FireWire
- F.**
Serial
- G.**
RJ-11
- H.**
Parallel

Answer: D,E,F,H

Explanation:

QUESTION NO: 28

When considering backup media, which of the following holds the MOST data?

- A.**
BD-R
- B.**
DVD-R
- C.**
DVD-DL
- D.**
CD-ROM

Answer: A

Explanation:

QUESTION NO: 29

Which of the following printers requires a special type of paper in order to print?

A.
Impact

B.
Thermal

C.
Inkjet

D.
Laser

Answer: B

Explanation:

QUESTION NO: 30

Which of the following components provides the FASTEST medium for hosting and storing an operating system?

A.
Blu-Ray disc

B.
7200RPM HDD

C.
SSD

D.
DVD-RW

Answer: C

Explanation:

QUESTION NO: 31

Which of the following could be described as both an input and output device?

- A.**
Flat-screen monitor
- B.**
Multi-function printer
- C.**
Microphone
- D.**
Scanner

Answer: B

Explanation:

QUESTION NO: 32

Which of the following components are used to store data? (Select TWO).

- A.**
Motherboard
- B.**
RAM
- C.**
CPU
- D.**
GPU
- E.**
SSD

Answer: B,E

Explanation:

QUESTION NO: 33

Which of the following computer components are used to store data? (Select TWO).

- A.**
GPU
- B.**
HDD
- C.**
RAM
- D.**
NIC
- E.**
CPU

Answer: B,C

Explanation:

QUESTION NO: 34

Which of the following connectors consists of three separate plugs for video?

- A.**
Display port
- B.**
S-video
- C.**
Thunderbolt
- D.**
Component

Answer: D

Explanation:

QUESTION NO: 35

Which of the following allows for the FASTEST printer connections?

- A.**
Bluetooth
- B.**
USB
- C.**
Parallel
- D.**
Serial

Answer: B

Explanation:

QUESTION NO: 36

Before purchasing a new video card for a PC, which of the following should be checked to ensure there will be enough electricity for the video card to function properly?

- A.**
GPU
- B.**
CPU
- C.**
GUI
- D.**
PSU

Answer: D

Explanation:

QUESTION NO: 37

Which of the following has the lowest latency?

- A.**
SSD
- B.**
NAS
- C.**
Blu-Ray
- D.**
DVD

Answer: A

Explanation:

QUESTION NO: 38

Which of the following is considered an optical storage medium?

- A.**
SSD
- B.**
Blu-Ray
- C.**
Flash drive
- D.**
Memory card

Answer: B

Explanation:

QUESTION NO: 39

Which of the following are examples of keyboard connectors? (Select TWO).

- A.
USB
- B.
RJ-11
- C.
Serial
- D.
FireWire
- E.
PS/2

Answer: A,E

Explanation:

QUESTION NO: 40

Which of the following is the function of a CPU?

- A.
Encrypts data for remote transmission
- B.
Performs data computation
- C.
Supplies electricity to components
- D.
Provides storage location for files

Answer: B

Explanation:

QUESTION NO: 41

Several users want to share a common folder with high availability. Which of the following devices is BEST to use for this requirement?

- A.**
Large USB flash drive connected to a PC
- B.**
Medium capacity SATA hard drive
- C.**
Network attached storage appliance
- D.**
Firewall with security management

Answer: C

Explanation:

QUESTION NO: 42

Which of the following is a 15-pin video connection?

- A.**
DVI
- B.**
S-video
- C.**
Component
- D.**
HDMI
- E.**
VGA

Answer: E

Explanation:

QUESTION NO: 43

Which of the following are considered input devices for a computer? (Select TWO).

- A.**
Mouse
- B.**
Printer
- C.**
Speakers
- D.**
Microphone
- E.**
Monitor

Answer: A,D

Explanation:

QUESTION NO: 44

Which of the following is required to have a multimedia conversation with someone across the Internet? (Select THREE).

- A.**
Network connection
- B.**
Microphone
- C.**
Modem
- D.**
Firewall
- E.**
Webcam
- F.**
Cable connection
- G.**
Wired NIC

Answer: A,B,E

Explanation:

QUESTION NO: 45

Which of the following components is required to send faxes via POTS?

- A.**
NIC
- B.**
Power supply
- C.**
Modem
- D.**
Wireless adapter

Answer: C

Explanation:

QUESTION NO: 46

A technician sets up a new computer system and connects the keyboard and mouse to the PS/2 ports. When the computer boots, the BIOS gives a keyboard and mouse error. Both devices are connected. Which of the following is the solution?

- A.**
Swap the mouse and keyboard to the other PS/2 ports.
- B.**
Remap the mouse and keyboard in the BIOS.
- C.**
Update the BIOS to recognize the newer keyboard and mouse.
- D.**
Configure the keyboard localization settings.

Answer: A

Explanation:

Topic 3, Security

QUESTION NO: 47

A user has a username and password to log onto a banking website. The user would like to keep access to the account as secure as possible. Which of the following security best practices should the user follow? (Select TWO).

- A.**
Use only public computers to access the website
- B.**
Create a complex password
- C.**
Change the default password
- D.**
Write the password down
- E.**
Use the original password

Answer: B,C

Explanation:

QUESTION NO: 48

A user, Ann, is experiencing slow browsing on a website she frequently visits that displays constant pop-up ads. Which of the following is the MOST likely cause?

- A.**
The browser is incompatible with the website
- B.**
The workstation has been infected with malware
- C.**
The website is not secured by SSL

D.

The certificate of the website has expired

Answer: B

Explanation:

QUESTION NO: 49

A laptop owner, Ann, can no longer see web pages when she opens her browser, and she can only see her search bars and plug-ins. Which of the following is the MOST likely source of this issue?

A.

The computer does not have current antivirus software installed

B.

The computer needs to have its components upgraded

C.

The downloaded toolbars are filling the browser screen

D.

The owner was not using complex passwords

Answer: C

Explanation:

QUESTION NO: 50

Which of the following is the MOST sensitive Personally Identifiable Information (PII) and should be shared cautiously and only with trusted resources?

A.

Email address

B.

Phone number

C.

Mother's maiden name

D.

Last name

Answer: C

Explanation:

QUESTION NO: 51

A user will be traveling with a smartphone that contains confidential information. Which of the following should be disabled? (Select TWO).

A.

Keyboard

B.

Speakers

C.

Mouse

D.

Bluetooth

E.

NFC

Answer: D,E

Explanation:

QUESTION NO: 52

A technician wants to minimize the risk of having third parties track previously visited web pages. Which of the following should be performed in the Internet browser's settings? (Select TWO).

A.

Select form data

B.

Disable location services

C.

Remove cookies

D.

Clear history

E.

Change passwords

Answer: C,D

Explanation:

QUESTION NO: 53

When setting up a new device, there are multiple features available that will never be used. Which of the following should the user do to make the new device more secure?

A.

Make all users administrators.

B.

Remove or disable the unnecessary features.

C.

Install a password manager on the device.

D.

Make all users guests.

Answer: B

Explanation:

QUESTION NO: 54

Joe, a user, saves a document to a flash drive on his computer in order to print the document from a public computer kiosk. After returning home and reinserting the flash drive in his computer, the security software identifies an infected file on the flash drive. Which of the following is the MOST likely cause of the infection?

A.

The flash drive was infected by a war driving hacker on the way to the public kiosk.

B.

The public workstation was infected by Joe's flash drive.

C.

The public workstation was infected and passed the virus to the flash drive.

D.

The flash drive was already infected by the user's computer.

Answer: C

Explanation:

QUESTION NO: 55

A user is browsing the Internet when suddenly a threatening message appears on screen demanding a payment in order to avoid the system being disabled. Which of the following BEST describes this type of malware infection?

A.

Ransomware

B.

Adware

C.

Spyware

D.

Virus

Answer: A

Explanation:

QUESTION NO: 56

Which of the following is an example of ransomware?

A.

A user is asked to pay a fee for a password to unlock access to their files.

B.

A user receives an email demanding payment for a trial application that has stopped working.

C.

A user has opened an Internet browser and is taken to a site that is not the normal home page.

D.

A user is asked to open an attachment that verifies the price of an item that was not ordered.

Answer: A

Explanation:

QUESTION NO: 57

An employee, Joe, forgot his laptop at the airport. Joe is worried about unauthorized access. Which of the following BEST protects against data theft in this instance?

A.

Security software

B.

Full disk encryption

C.

Cable lock

D.

Username and password

E.

Patching the OS and third party software

Answer: B

Explanation:

QUESTION NO: 58

Multiple laptops that contain confidential data are stolen from a company. Which of the following is a likely policy change resulting from this incident?

A.

Enabling full disk encryption

- B.**
Requiring screensaver password
- C.**
Disabling Bluetooth adapters
- D.**
Adding multifactor authentication

Answer: A

Explanation:

QUESTION NO: 59

A user receives an email formatted to appear as if the bank sent it. The email explains that the user must confirm the name, address, and social security number listed on the bank account. Which of the following BEST describes the security threat taking place?

- A.**
Shoulder surfing
- B.**
Social engineering
- C.**
Spam
- D.**
Phishing

Answer: D

Explanation:

QUESTION NO: 60

A user, Ann, is concerned about theft of her laptop and does not want a thief to have easy access to all of her banking and email. Which of the following precautions could be taken to mitigate this issue?

- A.**
Only browse the Internet on WiFi connections that use WPA2

- B.**
Turn off the guest account in the operating system
- C.**
Disable autofill functionality within the web browser
- D.**
Remove any legacy browsers from the computer

Answer: C

Explanation:

QUESTION NO: 61

A user is configuring a new wireless router. Which of the following should be done to ensure that unauthorized changes cannot be made?

- A.**
Change the SSID
- B.**
Change the router's address
- C.**
Change the administrator password
- D.**
Change the encryption key

Answer: C

Explanation:

QUESTION NO: 62

Which of the following would BEST be described as password best practices? (Select THREE).

- A.**
Use of long passwords
- B.**
Sharing passwords with a trusted source

- C.**
Limiting password reuse
- D.**
Keeping default passwords
- E.**
Use of special characters
- F.**
Writing down difficult passwords

Answer: A,C,E

Explanation:

QUESTION NO: 63

A user, Ann, receives a call asking for her password to troubleshoot a problem. Which of the following describes this type of security threat?

- A.**
Malware
- B.**
Social engineering
- C.**
Spam
- D.**
Physical security

Answer: B

Explanation:

QUESTION NO: 64

Malware that has an embedded keylogger to capture all of the keystrokes and steal logins is considered:

- A.**

adware

B.

spyware

C.

ransomware

D.

phishing

Answer: B

Explanation:

QUESTION NO: 65

Which of the following security threats occurs when a user receives an email from an illegitimate source asking for login information?

A.

Hacking

B.

Phishing

C.

Spam

D.

Cracking

Answer: B

Explanation:

QUESTION NO: 66

Which of the following are best practices when it comes to using a computer in a public location? (Select TWO).

A.

Notify the administrator when finished.

- B.**
Use strong passwords.
- C.**
Turn off the computer when finished.
- D.**
Disable the save password function on web pages.
- E.**
Make sure to clean the keyboard when finished.
- F.**
Make sure to log out of websites when done.

Answer: D,F

Explanation:

QUESTION NO: 67

Joe, a user, wishes to allow his roommate to access his personal computer for Internet browsing, but does not want his roommate to have the ability to make changes to the system. Which of the following BEST describes the type of account Joe should create for his roommate?

- A.**
Standard
- B.**
Guest
- C.**
Administrator
- D.**
Power user

Answer: B

Explanation:

QUESTION NO: 68

A user is configuring a SOHO wireless router. The user should change the router's default

administrator password for which of the following reasons?

- A.**
To prevent improper data transmission encryption
- B.**
To prevent unauthorized configuration changes
- C.**
To prevent social engineering attacks
- D.**
To increase wireless signal strength

Answer: B

Explanation:

QUESTION NO: 69

Ann, a user, is doing her daily job on her company laptop at a coffee shop. She opens an Internet browser and tries to go to her home page. Instead, she is sent to an unfamiliar website. She clears all temporary files and deletes the history, but this continues to occur. Which of the following is the cause of the problem?

- A.**
The company has configured a policy on her computer that forces her to stay on their website.
- B.**
Her computer is infected with adware and is redirecting her browser to another site.
- C.**
The memory of the browser is corrupt, and she needs to have the browser reinstalled.
- D.**
She did not reboot her computer after clearing the temporary files.

Answer: B

Explanation:

QUESTION NO: 70

An attacker cracks a user's password for all social media, email, and bank accounts. The user needs to change the passwords for all these accounts. Which of the following should the user do in the future to prevent this from happening?

- A.**
Disable unused browser toolbars.
- B.**
Clear the browser cache.
- C.**
Avoid credential reuse.
- D.**
Delete tracking cookies.

Answer: C

Explanation:

QUESTION NO: 71

While browsing the Internet, a user receives a warning regarding the display of mixed content. The address bar includes https, and the lock symbol is showing. Which of the following does this warning indicate about the website?

- A.**
It stores data in cache or cookies, but not both.
- B.**
It requires login credentials for some sections.
- C.**
It contains both secure and non-secure parts.
- D.**
It is best viewed with a different browser.

Answer: C

Explanation:

QUESTION NO: 72

A technician is typing the password to logon to a system. A user is standing in close proximity to the technician and is able to see the password being typed. Which of the following BEST describes this situation?

- A.
Dumpster diving
- B.
Shoulder surfing
- C.
Phishing
- D.
Social engineering

Answer: B

Explanation:

Topic 4, Networking

QUESTION NO: 73

Joe, a user, has just installed his first home wireless router. Which of the following tasks should be considered to help secure the unit from any confirmed exploits?

- A.
Change the router administrator username.
- B.
Change the router's broadcasting channel.
- C.
Update the unit's firmware.
- D.
Use a complex administrator password.

Answer: C

Explanation:

QUESTION NO: 74

Which of the following is the BEST security practice to use when configuring the management options of a wireless router?

- A.**
Disable DHCP
- B.**
Change the admin password
- C.**
Enable SSID
- D.**
Enable remote administration

Answer: B

Explanation:

QUESTION NO: 75

When operating under optimal network conditions, which of the following has the HIGHEST reliability?

- A.**
Bluetooth
- B.**
Wired
- C.**
Cellular
- D.**
WiFi

Answer: B

Explanation:

QUESTION NO: 76

A user needs to download tax documents from a financial website. Which of the following is the website MOST likely to use for transmission of the tax document to the user's browser?

- A.
HTTP
- B.
HTTPS
- C.
SFTP
- D.
FTP

Answer: B

Explanation:

QUESTION NO: 77

Which of the following are secure network protocols? (Select TWO).

- A.
IMAP
- B.
FTPS
- C.
SMTP
- D.
HTTPS
- E.
DNS

Answer: B,D

Explanation:

QUESTION NO: 78

Which of the following will allow the easiest and fastest way to share a single file between two modern smartphones without joining the same WiFi network?

- A.**
Micro SD card
- B.**
Bluetooth
- C.**
USB connection
- D.**
Infrared

Answer: B

Explanation:

QUESTION NO: 79

Which of the following BEST describes the pros and cons of a home wired network?

- A.**
Low throughput, low mobility, high availability, high latency, high security
- B.**
High throughput, high mobility, low availability, low latency, high security
- C.**
High throughput, low mobility, high availability, low latency, high security
- D.**
Low throughput, high mobility, low availability, high latency, low security

Answer: C

Explanation:

QUESTION NO: 80

A technician has just finished setting up a SOHO wireless router but the client does not want the PC on the wireless network for security reasons. The technician connects an RJ-45 cable to the

computer and the router, but does not receive network connectivity. Which of the following is the NEXT step to diagnose the problem?

- A.**
Change the IP address on the computer to match the router.
- B.**
Reseat the power cable on the computer and reboot.
- C.**
Check for link light activity on the computer and the router.
- D.**
Change the hostname of the router to match the computer's network.

Answer: C

Explanation:

QUESTION NO: 81

Which of the following is an advantage of using cloud-based collaborative applications and storage, rather than local applications and storage?

- A.**
Decreased software licensing costs
- B.**
Higher security encryption
- C.**
Limited storage space for files
- D.**
Increased accessibility to files

Answer: D

Explanation:

QUESTION NO: 82

Which of the following data connections would provide a user the BEST Internet availability while

traveling?

- A.**
Workstation with only RJ-45 connectors
- B.**
Smartphone with cellular service
- C.**
Laptop with Bluetooth wireless connectivity
- D.**
Tablet connected to a SOHO wireless network

Answer: B

Explanation:

QUESTION NO: 83

A technician is configuring a wireless router for a small office and the business owner would like the wireless network to be secured using the strongest encryption possible. Which of the following should the technician choose?

- A.**
WPA2
- B.**
WAP
- C.**
WPA
- D.**
WEP

Answer: A

Explanation:

QUESTION NO: 84

A user's laptop hard drive contains sensitive information. The user often plugs the laptop into the

corporate network. A sensitive file from the laptop has been found on another user's laptop. How could the user have prevented this breach?

- A.**
Disable file and print sharing on the laptop.
- B.**
Delete unused drives from network.
- C.**
Remove shared keys from the key ring.
- D.**
Set the read-only attribute on the files.

Answer: A

Explanation:

QUESTION NO: 85

Joe, a user, needs to store a large amount of data, but does not have enough space on his local computer. Which of the following are the BEST options for him to use? (Select TWO).

- A.**
Network attached storage
- B.**
External hard drive
- C.**
Optical drive
- D.**
USB thumb drive
- E.**
Another computer

Answer: A,B

Explanation:

QUESTION NO: 86

When connecting a printer to a network, which of the following is needed to complete the process? (Select TWO).

- A.**
IP address
- B.**
User's password
- C.**
Computer's name
- D.**
Subnet mask
- E.**
HTTP port
- F.**
Fax number

Answer: A,D

Explanation:

QUESTION NO: 87

Which of the following protocols is used to secure communications between sender and receiver?

- A.**
SIP
- B.**
SNMP
- C.**
SSL
- D.**
SMTP

Answer: C

Explanation:

QUESTION NO: 88

Which of the following connections provide data with the MOST secure protection from interception?

- A.**
Wired
- B.**
WiFi
- C.**
IR
- D.**
Cellular

Answer: A

Explanation:

QUESTION NO: 89

A technician has been tasked with changing the settings for a used SOHO router, but does not have the administrator password because the previous owner changed it. Which of the following actions will resolve this issue?

- A.**
Click "Forgot password."
- B.**
Use a password cracker.
- C.**
Hold the reset button.
- D.**
Use the password: password.

Answer: C

Explanation:

QUESTION NO: 90

A user is setting up an older wireless access point that has only WEP for encryption. Which of the following additional steps will help to secure the network? (Select TWO).

- A.**
Disable SSID broadcast.
- B.**
Refresh the MAC address.
- C.**
Filter the MAC address.
- D.**
Refresh the IP address.
- E.**
Use CAT6 cables.

Answer: A,C

Explanation:

Topic 5, Basic IT Literacy

QUESTION NO: 91

When setting up a new workstation, which of the following should be configured during the initial OS setup wizard?

- A.**
Additional software
- B.**
Date and time settings
- C.**
Peripheral devices
- D.**
Security software

Answer: B

Explanation:

QUESTION NO: 92

Which of the following is the BEST reason to backup data?

- A.**
To ensure data encryption
- B.**
To ensure data stability
- C.**
To ensure data security
- D.**
To ensure data availability

Answer: D

Explanation:

QUESTION NO: 93

Which of the following is a safety feature of cloud-based backups?

- A.**
Incremental copy of data
- B.**
Local copy of data
- C.**
Offsite storage of data
- D.**
Full backup of PC data

Answer: C

Explanation:

QUESTION NO: 94

A technician is setting up a computer that was shipped. After everything is plugged in, the computer will not turn on. Which of the following should the technician do FIRST to identify the issue?

- A.**
Check for physical damage on the computer.
- B.**
Search for a solution on the Internet.
- C.**
Reference the manufacturer's documentation.
- D.**
Ensure the power supply is set at the correct voltage.

Answer: D

Explanation:

QUESTION NO: 95

Ann, a user, wishes to free space in her documents folder. Which of the following is the BEST characteristic to sort by in order to ensure that the most space is freed by deleting the least amount of files?

- A.**
Date modified
- B.**
File path
- C.**
Size
- D.**
Extension

Answer: C

Explanation:

QUESTION NO: 96

Where can a user find the latest updates, upgrades, or firmware for an electronic device that the vendor supports?

- A.**
Internet search engine
- B.**
Internet forum
- C.**
Technical community groups
- D.**
OEM website

Answer: D

Explanation:

QUESTION NO: 97

When applying ergonomics to a workstation area, which of the following are the MOST important to consider? (Select TWO).

- A.**
Proper sitting position
- B.**
Amount of time computer will be used
- C.**
Clarity of the display
- D.**
Proper keyboard and mouse height
- E.**
Number of speakers in sound system
- F.**
Brightness and contrast of the display

Answer: A,D

Explanation:

QUESTION NO: 98

An RoHS label on hardware indicates which of the following?

- A.**
The hardware produces EMI when used.
- B.**
The hardware is certified to be energy efficient.
- C.**
The hardware provides battery backup for power outages.
- D.**
The hardware needs to be properly disposed.

Answer: D

Explanation:

QUESTION NO: 99

Ann, a user, reports that her computer was working this morning, but now the screen is blank. The power indicator for the monitor is on. Pressing the space bar or mouse does not fix the problem. Which of the following is the cause?

- A.**
The monitor power cable is unplugged.
- B.**
The video cable has become disconnected.
- C.**
The video driver is not installed.
- D.**
The operating system has encountered a stop error.
- E.**
The screen saver has activated.

Answer: B

Explanation:

QUESTION NO: 100

Which of the following will allow a user to move a file from one folder to another using the LEAST number of steps, while ensuring that the file is removed from its original location?

- A.**
Open the file from its original location, save it to the new location, and delete it from the original location.
- B.**
Cut the file from its original location and paste it to the new location.
- C.**
Rename the file in its original location to a name that is not already taken in the new location.
- D.**
Copy the file from its original location and paste it to the new location.

Answer: B

Explanation:

QUESTION NO: 101

Which of the following permissions is required to run a .bat file?

- A.**
Delete
- B.**
Execute
- C.**
Write
- D.**
Modify

Answer: B

Explanation:

QUESTION NO: 102

After initial OS and application installation on a laptop, an application warns that it will only work 24 more times. Which of the following should be done NEXT?

- A.**
The application has to be registered to the user.
- B.**
The application must be upgraded to a 64-bit version.
- C.**
The application must be activated.
- D.**
The application needs to be reinstalled.

Answer: C

Explanation:

QUESTION NO: 103

An employee's new computer came with a free 30-day trial version of antivirus software. The employee's company provides enterprise antivirus software from a different vendor. Which of the following should the employee do in order to use a full version of antivirus software?

- A.**
Enter the company product key for the antivirus software, enabling the full version.
- B.**
Uninstall the current version antivirus software and install the company version.
- C.**
Verify Internet connectivity and run online virus scanning software.
- D.**
Update the trial antivirus software to the latest version.

Answer: B

Explanation:

QUESTION NO: 104

A user has finished setting up a new computer. Now the operating system requires activation, but the user discovers the computer has no Internet connection. Which of the following should the user do FIRST?

- A.**
Contact technical support.
- B.**
Reboot the computer.
- C.**
Check the Ethernet cable.
- D.**
Review manufacturer's website.

Answer: C

Explanation:

QUESTION NO: 105

Which of the following is a feature of a basic power strip?

- A.**
Protects against lightning strikes
- B.**
Provides multiple outlets for power
- C.**
Generates power for devices
- D.**
Provides battery backup for devices

Answer: B

Explanation:

QUESTION NO: 106

Which of the following should be performed after a backup has been completed?

- A.**
Delete the backup
- B.**
Verify the backup
- C.**
Save the backup
- D.**
Schedule the backup

Answer: B

Explanation:

QUESTION NO: 107

Which of the following is a file on a computer that links to another program or file somewhere else on the same computer?

- A.**
Shortcut
- B.**
URL
- C.**
Attachment
- D.**
FTP

Answer: A

Explanation:

QUESTION NO: 108

Which of the following defines why backup verification is important?

- A.**
To ensure that the backup runs as quickly as possible
- B.**
To ensure that the backup can be stored indefinitely
- C.**
To ensure that the backup can be saved to the cloud
- D.**
To ensure that the backup contains usable data

Answer: D

Explanation:

QUESTION NO: 109

A home computer that has been in operation for more than five years is now suffering from random shutdowns during the day. The PC is set up in an enclosed cubby built into the home office desk. Which of the following is MOST likely plaguing the PC?

- A.**
The PC was switched over to 240v operation mode
- B.**
Dust accumulation
- C.**
The PC's BIOS is severely out-of-date, causing PSU issues
- D.**
EMI

Answer: B

Explanation:

QUESTION NO: 110

A user installed a new scanner on a desktop personal computer without any documentation. The scanner powers on, the lamp turns on, and then the unit stops with a failure light lit. Which of the following should the user do FIRST?

- A.**
Go to the scanner manufacturer's website and download the current installation information.
- B.**
Check the personal computer manufacturer's support website for information about scanner installation.
- C.**
Find a scanner user group website and ask for help.
- D.**
Update the scanner firmware and drivers, then reinstall the scanner.

Answer: A

Explanation:

QUESTION NO: 111

Which of the following can a user configure on an operating system so that an audible sound is made when an error message is displayed?

- A.**
Encryption
- B.**
Hot keys
- C.**
Accessibility options
- D.**
Screen captures

Answer: C

Explanation:

QUESTION NO: 112

A technician is trying to access a user's files and is unable to open any folder or file. Which of the following BEST describes the situation?

- A.**
The folders contain older versions of the files.
- B.**
The files are corrupted.
- C.**
The technician needs to change the file attributes.
- D.**
The technician does not have permissions.

Answer: D

Explanation:

QUESTION NO: 113

A user working on a laptop notices the mouse cursor frequently moves to random locations in a document while typing. Which of the following should the user do FIRST to help resolve this issue?

- A.**
Ask tech support for help.
- B.**
Reboot the laptop.
- C.**
Turn off the touchpad.
- D.**
Reconnect the mouse.

Answer: C

Explanation:

QUESTION NO: 114

Which of the following settings will a user configure as part of the initial operating system setup wizard? (Select TWO).

- A.**
Backup schedule
- B.**
Accessibility options
- C.**
Multiple user accounts
- D.**
Time zone
- E.**
Computer name

Answer: D,E

Explanation:

QUESTION NO: 115

Ann, a user, reports that her computer was working this morning, but now the screen is blank. The power indicator for the monitor is on. Pressing the space bar or mouse does not fix the problem. Which of the following is the cause?

- A.**
The monitor power cable is unplugged.
- B.**
The video cable has become disconnected.
- C.**
The video driver is not installed.
- D.**
The operating system has encountered a stop error.
- E.**
The screen saver has activated.

Answer: B

Explanation:

QUESTION NO: 116

After initial OS and application installation on a laptop, an application warns that it will only work 24 more times. Which of the following should be done NEXT?

- A.**
The application has to be registered to the user.
- B.**
The application must be upgraded to a 64-bit version.
- C.**
The application must be activated.
- D.**
The application needs to be reinstalled.

Answer: C

Explanation:

QUESTION NO: 117

After installing the OS on a workstation, a technician notices that everything is displayed in large windows and the viewing area is limited. Which of the following will the technician need to adjust to resolve this issue?

- A.**
Color depth
- B.**
Orientation
- C.**
DPI settings
- D.**
Resolution

Answer: D

Explanation:

Topic 6, Mix Questions

QUESTION NO: 118

A user has finished running the initial operating system setup wizard. Which of the following would be BEST for the user to do next?

- A.**
Verify Internet connectivity
- B.**
Install productivity software
- C.**
Install security software
- D.**
Add other user accounts

Answer: C

Explanation:

QUESTION NO: 119

Which of the following technologies would allow a user to run multiple operating systems at the same time on a single computer?

- A.**
Telepresence
- B.**
Cloud-based software
- C.**
Virtualization software
- D.**
Productivity software

Answer: C

Explanation:

QUESTION NO: 120

A user wants to update a driver for additional features. Where would the user find a current version of the driver from an official source?

- A.**
Manufacturer's CD/DVD that came with the computer
- B.**
Manufacturer's web site
- C.**
Internet community support forums
- D.**
Third-party support web sites

Answer: B

Explanation:

QUESTION NO: 121

Which of the following should be done to reduce physical safety hazards around a newly installed computer?

- A.**
Verify all connections are seated properly.
- B.**
Avoid placing other computers nearby.
- C.**
Bundle loose cables with zip ties or Velcro straps.
- D.**
Attach all peripherals to the computer.

Answer: C

Explanation:

QUESTION NO: 122

A user with an outdated operating system is consistently browsing sensitive websites such as banking, email, and corporate intranets. The Internet browser of choice is one that has already lost patch support and is not updated anymore. Which of the following actions will remedy this situation?

Uninstall all unused browser extensions and toolbars to help reduce risks.
- B.**
Convert the user's account to an admin level account, to provide better overall security.
- C.**
Move to an alternate browser that still has consistent security update support.
- D.**
Install multiple anti-malware and firewall products to harden the computing experience.

Answer: C

Explanation:

QUESTION NO: 123

Which of the following connectors is MOST often used to connect a computer to a network?

- A.**
RJ-45
- B.**
RJ-11
- C.**
IDE
- D.**
eSATA

Answer: A

Explanation:

QUESTION NO: 124

A user is installing a new scanner on a computer. Which of the following MOST likely needs to be installed in order for this equipment to work?

- A.**
License key
- B.**
OS update
- C.**
Firmware
- D.**
Driver

Answer: D

Explanation:

QUESTION NO: 125

Which of the following software is used to reduce the size of a file or folder?

- A.**
Desktop publishing
- B.**
Basic database
- C.**
Compression
- D.**
Anti-malware

Answer: C

Explanation:

QUESTION NO: 126

Which of the following is used with a touch screen to increase accuracy?

- A.**
Touchpad
- B.**
Stylus pen
- C.**
Joystick
- D.**
Trackball

Answer: B

Explanation:

QUESTION NO: 127

Which of the following internal components is used for temporary data storage in a workstation?

- A.**
Power supply
- B.**
CPU
- C.**
RAM
- D.**
Hard drive

Answer: C

Explanation:

QUESTION NO: 128

Which of the following is used for temporary storage of program data that is cleared when the computer is turned off?

- A.**
CPU
- B.**
SSD
- C.**
Hard drive
- D.**
System memory

Answer: D

Explanation:

QUESTION NO: 129

Which of the following connectors supports both high definition video and audio?

- A.**
S-video
- B.**
Component
- C.**
HDMI
- D.**
DVI

Answer: C

Explanation:

QUESTION NO: 130

Which of the following BEST describes malicious software that demands the end-user pay a fee or face the destruction of their files?

- A.**
Trojan
- B.**
Virus
- C.**
Spyware
- D.**
Ransomware

Answer: D

Explanation:

QUESTION NO: 131

Which of the following should be done to reduce the risk of having sensitive passwords compromised while browsing the Internet?

- A.**
Enable software firewalls to block unknown ports
- B.**
Disable autofill of forms and passwords
- C.**
Enable screensavers and time-outs on the computer
- D.**
Use ad-blocking software on the computer

Answer: B

Explanation:

QUESTION NO: 132

Which of the following would be the MOST efficient way to transport a file from one location on a local hard drive to a different location on the same hard drive?

- A.**

Rename

B.

Cut

C.

Move

D.

Save

Answer: C

Explanation:

QUESTION NO: 133

A student wishes to share contacts with another student's mobile device. Which of the following would be the easiest method to use?

A.

Network attached storage

B.

Bluetooth sharing

C.

Local hard drive

D.

Peer-to-Peer network

Answer: B

Explanation:

QUESTION NO: 134

When setting up a new desktop, which of the following should be performed FIRST?

A.

Configure user accounts

- B.**
Plug in cables
- C.**
Install security software
- D.**
Configure wireless network settings

Answer: B

Explanation:

QUESTION NO: 135

A user, Joe, wants to install an application on his computer. Which of the following factors should he be aware of before beginning?

- A.**
The computer has the proper hard drive drivers installed.
- B.**
The computer is connected to a secure wireless network.
- C.**
Check for any updates for the application.
- D.**
The computer meets the application's minimum requirements.

Answer: D

Explanation:

QUESTION NO: 136

Which of the following applications would a user employ to write a business letter?

- A.**
Spreadsheet software
- B.**
Word processor

C.
Desktop publishing

D.
Presentation software

Answer: B

Explanation:

QUESTION NO: 137

Which of the following devices transmits and receives printed images over a telephone line?

A.
Monitor

B.
Fax

C.
Scanner

D.
Webcam

Answer: B

Explanation:

QUESTION NO: 138

Which of the following video connections provides the highest resolution?

A.
USB

B.
S-video

C.
HDMI

D.
VGA

Answer: C

Explanation:

QUESTION NO: 139

A user receives an email containing a link. When they hover the mouse over the link, the actual URL does not match the text in the body of the email and appears to be a string of random characters. Which of the following is the BEST course of action?

- A.**
Forward the email to a friend to ask for advice.
- B.**
Reply to the sender asking for confirmation that it is safe to open.
- C.**
Delete the email without clicking on the link.
- D.**
Click the link because malware protection software is installed on the computer.

Answer: C

Explanation:

QUESTION NO: 140

Which of the following is the BEST reason to change a wireless router's default SSID?

- A.**
To make it easier to identify in a location with several routers.
- B.**
To make the network feel more personal.
- C.**
To make it more difficult to join.
- D.**

To make the network secure.

Answer: A

Explanation:

QUESTION NO: 141

A user, Joe, is concerned about the safety of his personal information on a website. Which of the following can Joe look for to ensure that his personal information is not at risk? (Select TWO).

- A.**
HTTP on the browser address bar
- B.**
Suspicious ads in the browser
- C.**
HTTPS on the browser address bar
- D.**
A lock symbol on the browser address bar
- E.**
The word secure in the browser address bar

Answer: C,D

Explanation:

QUESTION NO: 142

Which of the following data connection types provides the HIGHEST mobility?

- A.**
WiFi
- B.**
Cellular
- C.**
Direct link

D.
Wired

Answer: B
Explanation:

QUESTION NO: 143

Which of the following items require ESD precautions?

- A.**
Upgrading to a new touch screen monitor
- B.**
Adding a micro SD card to a smartphone
- C.**
Installing an compact flash card into a laptop
- D.**
Replacing RAM in a personal computer

Answer: D
Explanation:

QUESTION NO: 144

Which of the following are reasons to verify backups? (Select TWO).

- A.**
To create a system image for easy restore
- B.**
To confirm all selected data was backed up
- C.**
To diagnose any backup media hardware failure
- D.**
To determine if backup software needs to be patched

E.

To ensure files can be restored

Answer: B,E

Explanation:

QUESTION NO: 145

A user has just removed a new desktop PC from the box and has plugged in several new peripheral devices. During which of the following steps will the plug and play peripheral devices be installed on the new PC?

A.

Installing security software

B.

Powering on for the first time

C.

Booting the operating system

D.

Adding additional user accounts

Answer: C

Explanation:

QUESTION NO: 146

Which of the following is the BEST method of sharing files within a department?

A.

Email

B.

Flash drive

C.

Network drive

D.

Instant messaging

Answer: D

Explanation:

QUESTION NO: 151

A technician wants to keep a router up to date. Which of the following **MUST** be updated regularly?

A.
SSID

B.
Administrator password

C.
Wireless encryption

D.
Firmware

Answer: D

Explanation:

QUESTION NO: 152

The extension .rtf is an example of which of the following file types?

A.
Document

B.
Executable

C.
Audio

D.
Spreadsheets

Answer: A

Explanation:

QUESTION NO: 153

Which of the following are examples of video connectors? (Select TWO).

A.
VGA

B.
Serial

C.
HDMI

D.
eSATA

E.
PS/2

Answer: A,C

Explanation:

QUESTION NO: 154

When setting up a new computer, where does a user change the date and time?

A.
Peripheral configuration

B.
Localization settings

C.
Screen resolution

D.
eSATA settings

Answer: B

Explanation:

QUESTION NO: 155

A user wants to have the latest security patches and bug fixes installed on a computer. Which of the following is the BEST method to achieve this?

A.
Configure anti-malware updates

B.
Manually update before each use

C.
Update every six months

D.
Schedule automatic updates

Answer: D

Explanation:

QUESTION NO: 156

A user is accessing an online bank account for the first time via an Internet browser. Which of the following should the user check? (Select TWO).

A.
HTTPS before the URL

B.
Exclamation point on the status bar

C.
Lock symbol in the address bar

D.

HTTP before the URL

E.

Skull/crossbones symbol in the corner

Answer: A,C

Explanation:

QUESTION NO: 157

Which of the following CPU cooling types is BEST in a dusty environment?

A.

Liquid cooling

B.

Open case

C.

Case fan

D.

Heat sink fan

Answer: A

Explanation:

QUESTION NO: 158

To reduce the risk of installing unapproved or possibly malicious apps on a smartphone, a user should:

A.

Download apps from a user-supported community.

B.

Use a search engine to identify safe apps.

C.

Update the firmware to the latest version.

D.

Utilize the vendor-provided app store.

Answer: D

Explanation:

QUESTION NO: 159

Which of the following computer connector types was designed specifically for allowing high-speed external hard drive transfers?

A.

DVI

B.

USB

C.

eSATA

D.

HDMI

Answer: C

Explanation:

QUESTION NO: 160

- D.**
Minimize the alert and continue browsing the Internet.

Answer: B

Explanation:

QUESTION NO: 162

A technician needs to troubleshoot a user's computer. The user leaves personal credentials written on a piece of paper for the technician. Which of the following principles has the user violated?

- A.**
Password confidentiality
- B.**
Password complexity
- C.**
Password reuse
- D.**
Password expiration

Answer: A

Explanation:

QUESTION NO: 163

Joe, a user, has many applications on his computer and is trying to use software management best practices. Which of the following should he consider?

- A.**
Install a desktop cleanup application.
- B.**
Uninstall unneeded applications.
- C.**
Load each application one at a time.
- D.**
Manage the use of internal memory.

Answer: B

Explanation:

QUESTION NO: 164

A user's government identification number, birth date, and current address are considered which of the following?

- A.**
IMAP
- B.**
HTTP
- C.**
PII
- D.**
HTTPS

Answer: C

Explanation:

QUESTION NO: 165

A user, Ann, calls the manufacturer of a software product she purchased, but is denied assistance because the product is no longer supported. Which of the following options is a BEST next choice?

- A.**
P2P software sharing service
- B.**
Original instruction manual
- C.**
Online user forum
- D.**
PC manufacturer's website

Answer: C

Explanation:

QUESTION NO: 166

Which of the following software types BEST facilitates collaboration?

- A.**
Personal information manager
- B.**
Video editing software
- C.**
Instant messaging software
- D.**
CAD software

Answer: C

Explanation:

QUESTION NO: 167

To increase security, which of the following is the BEST feature to disable on a mobile device when not in use?

- A.**
Wireless
- B.**
GPS
- C.**
Network
- D.**
NFC

Answer: D

Explanation:

QUESTION NO: 168

Which of the following data connectivity options is the BEST to use when both high availability and reliability are required?

- A.**
WiFi
- B.**
Bluetooth
- C.**
Cellular
- D.**
Wired

Answer: D

Explanation:

QUESTION NO: 169

A technician has added an external hard drive to a personal computer. The hard drive is powered on, but the computer does not see the new hard disk. Which of the following is the FIRST thing the technician should check?

- A.**
The power cable
- B.**
The OS version for compatibility
- C.**
The hard drive firmware revision
- D.**
The data cable

Answer: D

Explanation:

QUESTION NO: 170

Which of the following is the MOST secure password?

- A.**
Have-A-Nice-Day
- B.**
HAVE-A-NICE-DAY
- C.**
have-a-nice-day12
- D.**
hav3-@-Nic3-D@Y14

Answer: D

Explanation:

QUESTION NO: 171

A user is updating a website. Which of the following protocols will provide the MOST security when uploading the files?

- A.**
FTPS
- B.**
FTP
- C.**
SMTP
- D.**
HTTP
- E.**
SNMP

Answer: A

Explanation:

QUESTION NO: 172

A website locks a user's account after three unsuccessful login attempts. This precaution prevents which of the following?

- A.**
Shoulder surfing
- B.**
Phishing
- C.**
Spam
- D.**
Password cracking

Answer: D

Explanation:

QUESTION NO: 173

Which of the following commands is used to view the contents of a file?

- A.**
Save
- B.**
Open
- C.**
Copy
- D.**
Move

Answer: B

Explanation:

QUESTION NO: 174

Which of the following media has the highest possible availability?

- A.**
Wired
- B.**
WiFi
- C.**
Cellular
- D.**
Bluetooth

Answer: A

Explanation:

QUESTION NO: 175

Which of the following extension types are associated with document files? (Select THREE).

- A.**
.txt
- B.**
.odf
- C.**
.msi
- D.**
.rtf
- E.**
.mp3

.tar
- G.**
.jpg

Answer: A,B,D

Explanation:

QUESTION NO: 176

A home user wants to share files between two different computers. The user wants the files to be available to either computer, regardless of whether or not either computer is turned on. Which of the following is the BEST storage method?

- A.**
USB storage
- B.**
Internal storage
- C.**
Direct attached storage

D.
Network attached storage

Answer: D

Explanation:

QUESTION NO: 177

Which of the following is the component responsible for interconnectivity of internal system devices?

A.
System case

B.
Power supply

C.
Motherboard

D.
Expansion card

Answer: C

Explanation:

QUESTION NO: 178

Which of the following storage methods provides the HIGHEST redundancy and availability?

A.
Cloud-based storage

B.
Storage Area Network

C.
Locally attached storage

D.
Network Attached Storage

Answer: A

Explanation:

QUESTION NO: 179

Which of the following is a benefit of setting up a computer to receive automatic updates from the OS vendor?

- A.**
Arranges the hard drive files in order
- B.**
Restores missing files that were lost or deleted
- C.**
Keeps the software current and applies security patches
- D.**
Provides the latest virus definitions to keep the computer safe

Answer: C

Explanation:

QUESTION NO: 180

Which of the following application types is MOST often used for doing a mail merge?

- A.**
PDF software
- B.**
Word processor
- C.**
Presentation software
- D.**
Personal information manager

Answer: B

Explanation:

QUESTION NO: 181

Which of the following security threats includes suspicious activity, such as reviewing someone's screen display without permission?

- A.**
Malware
- B.**
Shoulder surfing
- C.**
Phishing
- D.**
Password cracking

Answer: B

Explanation:

QUESTION NO: 182

A user reports an inability to access the Internet on a new SOHO router. On further investigation, a technician notices that the wireless network is not visible. Which of the following is the MOST likely cause?

- A.**
SSID broadcast is disabled
- B.**
Wireless password has changed
- C.**
Firmware update is required
- D.**
WPA2 is enabled

Answer: A

Explanation:

QUESTION NO: 183

Which of the following storage methods is MOST likely used in corporate settings to save large amounts of data in a secured manner?

- A.**
HTTP
- B.**
HTTPS
- C.**
FTPS
- D.**
FTP

Answer: C

Explanation:

QUESTION NO: 184

Which of the following describes the difference between open source and commercial operating systems?

- A.**
Open source operating systems only run on desktop computers, whereas commercial operating systems run on servers.
- B.**
Open source operating systems run on standard and non-standard hardware, whereas commercial operating systems only run on specific hardware.
- C.**
Open source operating systems can be downloaded and used by everyone, whereas commercial operating systems can only be used by companies.
- D.**
Open source operating systems are usually provided free of charge, whereas most commercial operating systems are usually provided at some cost.

Answer: D

Explanation:

QUESTION NO: 185

Which of the following is MOST important to ensure a computer temperature is maintained within normal limits?

- A.**
Maintaining constant power output
- B.**
Ensuring sufficient airflow
- C.**
Keeping the case open
- D.**
Turning the wireless off when not needed

Answer: B

Explanation:

QUESTION NO: 186

An employee is using a desk phone that is connected only via a network cable. Which of the following technologies is the phone using?

- A.**
LTE
- B.**
GSM
- C.**
VoIP
- D.**
CDMA

Answer: C

Explanation:

QUESTION NO: 187

Which of the following allows for hands-free operation of a wireless device?

- A.**
Encryption
- B.**
Wireless password
- C.**
Bluetooth pairing
- D.**
Internet connectivity

Answer: C

Explanation:

QUESTION NO: 188

Joe, a user, is setting up a new computer and wants to minimize the risk of a malicious software infection over the network. Which of the following should be configured on the new computer? (Select THREE).

- A.**
Password policies
- B.**
Multiple user accounts
- C.**
Software firewall
- D.**
Driver updates
- E.**
Operating system updates

F.
Anti-malware software

Answer: C,E,F

Explanation:

QUESTION NO: 189

Which of the following is the primary goal in performing a backup verification?

- A.**
Ensure backup data can be correctly restored
- B.**
Prove the media has sufficient space for the data
- C.**
Configure frequency of backups
- D.**
Adhere to legal backup storage requirements

Answer: A

Explanation:

QUESTION NO: 190

Which of the following file types is used to consolidate a group of files?

- A.**
.rtf
- B.**
.m3u
- C.**
.avi
- D.**
.rar

Answer: D

Explanation:

QUESTION NO: 191

Which of the following keys should be pressed to enable access to various menus?

- A.**
ALT
- B.**
SHIFT
- C.**
TAB
- D.**
CTRL

Answer: A

Explanation:

QUESTION NO: 192

Ann, a user, has an external monitor that will not turn on. Her laptop has activity lights and is plugged into the same power strip. Which of the following should be checked FIRST to begin troubleshooting this issue?

- A.**
The power strip
- B.**
The monitor video cable
- C.**
The laptop power cable
- D.**
The monitor power cable

Answer: D

Explanation:

QUESTION NO: 193

Which of the following methods are MOST likely used to reduce the internal temperature of a computer?

- A.**
Install a protective cover
- B.**
Reduce display brightness
- C.**
Air circulation
- D.**
Electronic recycling
- E.**
Liquid cooling

Answer: C,E

Explanation:

QUESTION NO: 194

A technician is setting up a router and would like to increase the security level. Which of the following actions will achieve this?

- A.**
Installing anti-malware on the router
- B.**
Changing the default admin password
- C.**
Increasing transmission power
- D.**
Configuring multifactor logon authentication

Answer: B

Explanation:

QUESTION NO: 195

Which of the following data connections can span the FARTHEST distance?

- A.**
WiFi
- B.**
Dial-up
- C.**
Satellite
- D.**
Cable

Answer: C

Explanation:

QUESTION NO: 196

Which of the following functions can transfer a file between folders and deletes it from the original folder?

- A.**
Edit
- B.**
Move
- C.**
Copy
- D.**
Paste

Answer: B

Explanation:

QUESTION NO: 197

An end-user has 16GB of RAM installed on a computer system. Which of the following describes why the OS only uses a maximum of 4GB of RAM?

- A.**
The operating system is 16-bit.
- B.**
The computer has corrupted RAM.
- C.**
The computer has a defective motherboard.
- D.**
The operating system is 32-bit.
- E.**
The computer has a virus.

Answer: D

Explanation:

QUESTION NO: 198

A technician just installed a new computer. Which of the following is the BEST way to manage the cables?

- A.**
Line the cables up neatly and wrap them together with cable ties.
- B.**
Leave the cables loose to prevent interference between wires.
- C.**
Nail the cables to the wall.
- D.**
Tuck the cables neatly underneath the carpet.

Answer: A

Explanation:

QUESTION NO: 199

A printer is migrated between offices. All the wires are connected properly, but the new workstation cannot find the printer. Which of the following should the technician install?

- A.**
OS
- B.**
Updates
- C.**
Drivers
- D.**
Application

Answer: C

Explanation:

QUESTION NO: 200

A user wants to run a major update on a laptop. Which of the following should be considered before running any major updates?

- A.**
Restore folders from back up
- B.**
Change administrator account password
- C.**
Back up important folders
- D.**
Print all personal documents

Answer: C

Explanation:

QUESTION NO: 201

Which of the following adds a basic security measure to a wireless device?

- A.**
Hands-free headset
- B.**
Screen lock feature
- C.**
Airplane mode
- D.**
Clip-on case

Answer: B

Explanation:

QUESTION NO: 202

Which of the following system utilities allows a user to configure multiple monitors in the OS?

- A.**
Color management
- B.**
Device manager
- C.**
GPU driver
- D.**
Display

Answer: D

Explanation:

QUESTION NO: 203

Joe, a user, reports that his neck and back are hurting after being at his desk for the whole day. Which of the following are the possible causes of the problem? (Select TWO).

- A.**
The keyboard is not ergonomic.
- B.**
The monitor does not have a screen protector.
- C.**
The monitor height is not adjusted to Joe's needs.
- D.**
Joe is not using a wrist rest with the keyboard.
- E.**
The chair is not properly adjusted to Joe's needs.

Answer: C,E

Explanation:

QUESTION NO: 204

Which of the following are core peripherals needed to use a desktop PC? (Select THREE).

- A.**
Monitor
- B.**
Keyboard
- C.**
Printer
- D.**
Mouse
- E.**
Speakers
- F.**

Mouse pad

G.

Webcam

Answer: A,B,D

Explanation:

QUESTION NO: 205

A user purchases a new desktop computer and requires assistance setting it up. Which of the following describes the BEST resource the user should reference?

A.

Technical community group

B.

Local retail store technical support

C.

Internet search engine

D.

Manufacturer documentation

Answer: D

Explanation:

QUESTION NO: 206

Which of the following is used for telepresence?

A.

VoIP telephone

B.

Webcam

C.

Remote desktop

D.
Touchscreen

Answer: B

Explanation:

QUESTION NO: 207

Which of the following storage media provides the FASTEST speeds when backing up large data files?

- A.**
Offsite storage
- B.**
Network attached storage
- C.**
Locally attached storage
- D.**
Cloud-based storage

Answer: C

Explanation:

QUESTION NO: 208

Which of the following security threats is classified as license theft?

- A.**
Entering the neighbor's software key
- B.**
Using software to reveal a password
- C.**
Searching through the trash for passwords
- D.**
Watching what a user types on screen

Answer: A

Explanation:

QUESTION NO: 209

The manufacturer of a SOHO router has released a security fix for the router. Which of the following methods should be used to apply the fix?

- A.**
Change the admin password.
- B.**
Apply new WEP key.
- C.**
Update the firmware.
- D.**
Hold the reset button.

Answer: C

Explanation:

QUESTION NO: 210

A user receives an email from the bank stating that the user needs to follow a link and re-enter login credentials due to recent security breaches. Based on best practices, which of the following actions should the user take? (Select TWO).

- A.**
Inform the ISP.
- B.**
Follow the instructions.
- C.**
Delete the message.
- D.**
Reply to the email.
- E.**

Contact the bank.

Answer: C,E

Explanation:

QUESTION NO: 211

A technician is creating a WiFi network to which anyone can connect without entering a key. With which of the following should the technician configure the wireless network?

- A.**
Shared
- B.**
Open
- C.**
WPS
- D.**
WPA

Answer: B

Explanation:

QUESTION NO: 212

A user needs to establish an initial password for an email account. Which of the following is the BEST example of a complex password?

- A.**
01#iWant!2686612338
- B.**
iWantobeaCosmonau#
- C.**
01c234n56789v9876x21
- D.**
012iWanttobe210

Answer: A

Explanation:

QUESTION NO: 213

A user is staying at a hotel on a trip and has the option to connect to multiple Wi-Fi networks. Which of the following networks is the BEST to use?

- A.**
One secured with a hidden SSID
- B.**
One secured with WPA2
- C.**
One secured with MAC filters
- D.**
One secured with WEP

Answer: B

Explanation:

QUESTION NO: 214

A user receives a message that requests login information and claims to be from the user's IT department. This is an example of:

- A.**
phishing
- B.**
spam
- C.**
ransomware
- D.**
password cracking

Answer: A

Explanation:

QUESTION NO: 215

Which of the following is an output device?

- A.**
Keyboard
- B.**
Microphone
- C.**
Printer
- D.**
Scanner

Answer: C

Explanation:

QUESTION NO: 216

Which of the following is a significant advantage of a locally stored file?

- A.**
Safe from loss due to hardware failure
- B.**
Easily accessed by Internet users
- C.**
Immediately accessible for use
- D.**
Backed up by cloud providers

Answer: C

Explanation:

QUESTION NO: 217

Ann, a user, is redirected to a shopping website every time she searches for items in any search engine she uses. Which of the following BEST describes the cause of this problem?

- A.**
Spyware
- B.**
Trojan
- C.**
Ransomware
- D.**
Adware

Answer: D

Explanation:

QUESTION NO: 218

Which of the following connector types are similar in physical appearance? (Select two.)

- A.**
Thunderbolt
- B.**
FireWire
- C.**
Lightning bolt
- D.**
Mini display port
- E.**
DVI

Answer: A,B

Explanation:

QUESTION NO: 219

When setting up a SOHO wireless router, which of the following is the FIRST step to secure the router from configuration changes by an unauthorized user?

- A.**
Changing the administrator password
- B.**
Hiding the SSID
- C.**
Setting encryption to WPA2
- D.**
Using a strong passphrase

Answer: A

Explanation:

QUESTION NO: 220

When downloading a large file that contains sensitive data, it is important to ensure that which of the following download methods is being used?

- A.**
Secure file transfer protocol
- B.**
Secure files and folders
- C.**
Hyper text transfer protocol
- D.**
Secure cloud services

Answer: A

Explanation:

QUESTION NO: 221

Joe, a user, gets an email asking him to click a link to update his login information for this bank. He clicks on the link to the website, which looks authentic. The URL shows unusual characters instead of the name of the bank. Which of the following has occurred?

- A.**
Phishing
- B.**
Spam
- C.**
Ransomware
- D.**
Spyware

Answer: A

Explanation:

QUESTION NO: 222

After configuring a new SOHO wireless router, Joe, a user, noticed that he was connected to the wrong access point. Which of the following steps of the configuration process should Joe implement to avoid this scenario in the future?

- A.**
Change the default SSID and verify the connection.
- B.**
Change the default wireless password.
- C.**
Change the router's administrator password.
- D.**

Change the default encryption algorithm and verify the connection.

Answer: A

Explanation:

QUESTION NO: 223

Joe, a user, wants to back up all the data on his home computers to a safe medium that will survive a house fire. Which of the following is the BEST choice?

- A.**
Blu-ray disc
- B.**
Cloud-based
- C.**
USB HDD
- D.**
FireWire HDD

Answer: B

Explanation:

QUESTION NO: 224

Which of the following allows users to print to another user's local printer?

- A.**
Network printing
- B.**
Bluetooth printing
- C.**
Print sharing
- D.**
Peer-to-peer sharing

Answer: C

Explanation:

QUESTION NO: 225

Which of the following allows for an audio and video signal to be sent via a single cable?

- A.**
HDMI
- B.**
VGA
- C.**
RGB
- D.**
SATA

Answer: A

Explanation:

QUESTION NO: 226

Which of the following is used by an email account to receive email?

- A.**
DNS
- B.**
SMTP
- C.**
SFTP
- D.**
SNMP
- E.**
POP3

Answer: E

Explanation:

QUESTION NO: 227

Which of the following is true about a user wanting to run a 64-bit software program on a 32-bit OS?

A.

The program cannot run natively on a 32-bit OS.

B.

The program will run with reduced functionality.

C.

The program can only run in compatibility mode.

D.

The program can run only if the computer hardware supports 64-bit.

Answer: A

Explanation:

QUESTION NO: 228

To ensure that a user is hardening computer resources properly, the user should do which of the following? (Select two.)

A.

Use one account for all family members.

B.

Look for open wireless network.

C.

Recognize suspicious hyperlinks.

D.

Install and update threat prevention software.

E.

Use a password-protected screen saver.

F.

Disable system timeouts.

Answer: D,E

Explanation:

QUESTION NO: 229

Which of the following are examples of mobile OSs for cellular services? (Select two.)

A.

iOS

B.

Mac OS X

C.

Chrome OS

D.

Android

E.

Windows XP

Answer: A,D

Explanation:

QUESTION NO: 230

Which of the following is a type of printing technology commonly used today?

A.

Infrared

B.

eSATA

C.
Laser

D.
Flatbed

Answer: C

Explanation:

QUESTION NO: 231

Which of the following connection methods requires line-of-sight to be effective?

A.
Fiber optics

B.
Infrared

C.
Cellular

D.
Wi-Fi

Answer: B

Explanation:

QUESTION NO: 232

A technician wants to test a new OS version locally without interfering with a production installation. Which of the following is the BEST technology to use?

A.
Cloud application software

B.
Virtualization software

C.

Telepresence software

D.

Collaboration software

Answer: B

Explanation:

QUESTION NO: 233

Which of the following are MOST likely to be configured during the initial setup of an OS on a basic workstation? (Select two.)

A.

Antivirus settings

B.

License keys

C.

Email setup

D.

Localization settings

E.

Printer configuration

Answer: B,D

Explanation:

QUESTION NO: 234

When logging in to a laptop, which of the following is an example of multifactor authentication?

A.

Logging on via key fob, password, and fingerprint reader

B.

Entering an account number, PIN, and password to log in

C.

A technician using the fingerprint reader and a retina scan

D.

A user entering a strong password to log in

Answer: A

Explanation:

QUESTION NO: 235

An employee who is working for a small business would like to prevent shoulder surfing. Which of the following should the employee do?

A.

Lock the computer.

B.

Purchase a privacy screen.

C.

Enable encryption.

D.

Create a strong password.

Answer: B

Explanation:

QUESTION NO: 236

A company needs an application that filters unwanted network traffic. Which of the following should be configured?

A.

Secure sockets layer

B.

Software firewall

C.

128-bit encryption

D.

Span filter

Answer: B

Explanation:

QUESTION NO: 237

A user is attempting to open a file and receives a pop-up message stating that the action cannot be accomplished. This is MOST likely a result of which of the following?

A.

The user is not logged into the system properly.

B.

The file is a read-only file.

C.

The user is not granted permission to access the file.

D.

The file attribute is set to hidden.

Answer: C

Explanation:

QUESTION NO: 238

Which of the following are basic functions to use when working only with files and folders in an OS? (Select two.)

A.

Maximize

B.

Run

C.

Copy

D.

Exit

E.

Minimize

F.

Rename

Answer: C,F

Explanation:

QUESTION NO: 239

Which of the following would a user need in order to connect to a public wireless hotspot at a local coffee shop?

A.

SSID

B.

User name

C.

IP address

D.

Wireless channel

Answer: A

Explanation:

QUESTION NO: 240

Ann, a user, is using a mobile device at a local coffee shop where she connects to an open Wi-Fi

hotspot. Which of the following is a risk that should be considered while using the hotspot?

- A.**
Data is not encrypted.
- B.**
Browser history is searchable.
- C.**
Passwords are secure.
- D.**
Firewall use is not necessary.

Answer: A

Explanation:

QUESTION NO: 241

A user is installing an operating system. Which of the following should the user do to apply best practices?

- A.**
Add enough drivers to support all potential peripherals.
- B.**
Install all default applications.
- C.**
Avoid installing unnecessary features.
- D.**
Enable all features.

Answer: C

Explanation:

QUESTION NO: 242

Which of the following items need to be disposed of properly to avoid hazardous materials in

landfills? (Select two.)

- A.**
Batteries
- B.**
Toner
- C.**
Furniture
- D.**
Paper
- E.**
Aluminum cans

Answer: A,B

Explanation:

QUESTION NO: 243

A user installs an expensive new microphone on a desktop. Now, every time the user boots the machine, the speakers give loud feedback. Which of the following caused this issue?

- A.**
The CPU is running too hot.
- B.**
The wrong audio card is installed.
- C.**
The speaker is not compatible with the microphone.
- D.**
The microphone is too close to the speaker.

Answer: D

Explanation:

QUESTION NO: 244

Which of the following storage types has no moving parts?

- A.**
Solid state drive
- B.**
Hard disk drive
- C.**
CD-ROM drive
- D.**
DVD drive

Answer: A

Explanation:

QUESTION NO: 245

A user must create a new password after a security breach was discovered at work. Which of the following is the MOST secure password?

- A.**
ABCDEF-1111
- B.**
pa\$\$w0rd
- C.**
#Bad.b0yZ1!
- D.**
abcdABCD43210

Answer: C

Explanation:

QUESTION NO: 246

Which of the following can be considered a basic function of a desktop OS?

- A.**
Enable hardware alerting and health.
- B.**
Provide an environment for software to function.
- C.**
Predict the next action a user will take.
- D.**
Provide a foundation for device driver design.

Answer: B

Explanation:

QUESTION NO: 247

Which of the following are common audio file extensions? (Select two.)

- A.**
.mp3
- B.**
.mp4
- C.**
.jpg
- D.**
.m4a
- E.**
.bat
- F.**
.rtf

Answer: A,D

Explanation:

QUESTION NO: 248

A technician is preparing a new company laptop for a staff member. Before the laptop is given to the staff member, which of the following are the MOST important steps to follow when connecting the laptop to the Internet? (Select two.)

- A.**
Add browser plugins.
- B.**
Create additional user accounts.
- C.**
Install the latest operating system updates.
- D.**
Adjust the screen resolution.
- E.**
Configure security settings.

Answer: C,E

Explanation:

QUESTION NO: 249

A user has recently installed a new version of antivirus software on a workstation. Which of the following steps should be taken to reduce the risk of infection?

- A.**
Enable OS automatic updates.
- B.**
Update browser extensions.
- C.**
Update the definitions.
- D.**
Enable the pop-up blocker.

Answer: C

Explanation:

QUESTION NO: 250

Which of the following describes sleep mode for a computer?

- A.**
No energy usage with session data stored in RAM
- B.**
Low energy usage with session data stored in RAM
- C.**
Low energy usage with session data stored on the HDD\SSD
- D.**
No energy usage with session data stored on the HDD\SSD

Answer: B

Explanation:

QUESTION NO: 251

A user wants to securely back up data for recovery in case of a natural disaster. Which of the following is the BEST solution? (Select two.)

- A.**
Back up to a NAS on-site.
- B.**
Back up to tape and send off-site.
- C.**
Use cloud-based backup.
- D.**
Encrypt all backup copies.
- E.**
Keep backup copies on multiple hard drives.

Answer: C,D

Explanation:

QUESTION NO: 252

A technician needs to connect a user's computer to the network. Which of the following device types would the technician install?

- A.**
Modem
- B.**
Ethernet card
- C.**
Graphics card
- D.**
Daughterboard

Answer: B

Explanation:

QUESTION NO: 253

Which of the following is the primary purpose of a computer's case fan?

- A.**
To cool the user in warm environments
- B.**
To cool the CPU
- C.**
To cool the video card
- D.**
To enhance airflow through the case

Answer: D

Explanation:

QUESTION NO: 254

Ann and Joe, both users, share the same computer. They both log on using the same account. Ann is concerned that Joe may review her Internet activity. Which of the following can be implemented to prevent both users from reviewing each other's Internet activity?

- A.**
Encrypt the computer's hard drive.
- B.**
Each user should use a different browser type.
- C.**
Use a password to protect the shared account.
- D.**
Configure the browser to clear history upon exit.

Answer: D

Explanation:

QUESTION NO: 255

Which of the following are the FASTEST ways to send a copy of a physical document to a remote user? (Select two.)

- A.**
Scan and email a copy of the document.
- B.**
Use document transcription software.
- C.**
Retype the document on the user's computer.
- D.**
Fax a copy of the document to the user.
- E.**

Copy and mail the document to the user.

Answer: A,D

Explanation:

QUESTION NO: 256

Which of the following devices may be required for video conferencing? (Select three.)

A.
Speakers

B.
Touch screen

C.
Microphone

D.
Webcam

E.
DVD drive

F.
Projector

Answer: A,C,D

Explanation:

QUESTION NO: 257

Ann, a user, has a new laptop and is unable to print using her old printer. She verified that the printer has connectivity to the laptop. Which of the following should Ann check NEXT?

A.
Printer manufacturer's website

B.
BIOS settings

C.
Laptop vendor's website

D.
Power card

Answer: A

Explanation:

QUESTION NO: 258

Which of the following requires user interaction in order to spread?

A.
Worm

B.
Adware

C.
Ransomware

D.
Virus

Answer: C

Explanation:

QUESTION NO: 259

Which of the following are good practices to follow when creating a password? (Select two.)

A.
Use personal identifiable information.

B.
Use the same password on multiple systems.

C.
Use a phrase that is easy to remember.

D.

Use mixed case letters.

E.

Use special characters.

Answer: D,E

Explanation:

QUESTION NO: 260

Which of the following is used for long-term data storage?

A.

SSD

B.

ESD

C.

PSU

D.

RAM

Answer: A

Explanation:

QUESTION NO: 261

Joe, a user, has installed a new SOHO wireless router. The router keeps dropping PC connections. Which of the following should be check?

A.

SSID

B.

MAC address

C.

Firmware

D.

Password

Answer: C

Explanation:

QUESTION NO: 262

A backup that stores only data that has changed since the last full backup is:

A.

a full backup

B.

a partial backup

C.

an incremental backup

D.

a differential backup

Answer: C

Explanation:

QUESTION NO: 263

A traveling business user is utilizing an LTE cellular connection that provides good coverage but experiences numerous outages during a given week. This would be classified as which of the following?

A.

High mobility and low reliability

B.

High mobility and high latency

C.

High availability and low mobility

D.

High availability and low throughput

Answer: A

Explanation:

QUESTION NO: 264

Which of the following could be a reason for limited web page visibility while using a large screen?

A.

The ISP is supplying less bandwidth than the amount for which the user is paying.

B.

The web pages are being viewed in a compatibility mode.

C.

Too many toolbars are installed in the browser.

D.

The user has the screen resolution set too high.

E.

The browser cache is full and must be cleared.

Answer: D

Explanation:

QUESTION NO: 265
